All,
Thank you for the positive notes regarding the LMS Project announcement. The one concern that has been repeatedly expressed is the ability to convert your existing WebCT courses over to the new system. We understand your apprehensions and acknowledge the tremendous amounts of time you have invested in developing all of your courses in the current version of WebCT. We will raise this conversion issue at each of the vendor demonstrations and include it as a requirement in the solicitation. The LMS website is now up at www.cofc.edu/it/tlt/lms/. Comments and or recommendations are welcomed.

Dates, Times and Locations for the Vendor Demonstrations and Town Meetings are Set

We hope you will attend as many of the vendor presentations as your schedule permits. The purpose of the town meetings is to hold an open discussion with faculty, staff, administration, other important stakeholders about any issues or questions they have. Each session will be driven by the audience and will likely raise some similar and different issues. Key concepts and responses for each session will be summarized and posted on the website.

Thanks in advance for your support and we hope to see you in February!

Susan
