

## VOLUNTARY STUDENT SURVEY, CALCULUS 2, SPRING 2007

Name:

Do you read your CofC (edisto) email?

If not,

- What email address do you use instead?
- Why not?

How many credit hours are you taking this semester?

Do you have a job or plan to get one?

If so, how many hours per week do you [plan to] work?

What was the last calculus course you took, and when and where did you take it?

What is your intended major? (If you are unsure, perhaps mention some possibilities.)

Why are you taking this course?

Do you have a conflict or grievance with my initial proposed office hours? (Being able to get to some of the times should be enough.) If so, indicate the problem; I will adjust office hours in consultation with my classes.

Any other comments or suggestions?

If you will require special accommodations to complete any of the requirements for this course, please discuss them with me as soon as possible.
